## How I Rake-in Thousands Monthly From Google AdSense Without a Website Or Blog

By

Uzoh Ikechukwu  
(The AdSense Guru)

## Now let me reveal to you the facts that prompted me to write this report

I attended so many seminars where marketers had a negative belief in Google AdSense.

As soon as I started making huge money from AdSense I was keen to disprove them,

In fact I came out publicly to surprise most of them that never believed in Google AdSense and believe me they were so shocked to see a system they rejected work for me.

***“Doing Google AdSense Without A Website Or Blog? Wao! How Real Could This Be”?***

Questions came up from all the corners of the hall.

Before too long I was booked for speaking engagements all over Nigeria and some other places in Africa, helping thousands of people realize their dreams and make a ton of money working from home.

After helping so many people transform their lives, I was eager to share my success with a greater audience. I wanted to create a simple and affordable solution that the “common”, non-experienced person, with no prior training could use to make money with automatically.

And that’s exactly what I did. After several weeks of hard work, I had developed a ready-made, turnkey profit machine that I now call AdSense Cash Puller System™.

The Only Solution You’ll Ever Need For Seeing Cash In Just Minutes

That’s why I’m here today... I’m going to share with you, everything you need to know in order to start making money on the Internet from home. Don’t worry... you’re not required to do much work and it’s so simple that even a 5th grader could start seeing profits almost overnight.

## **What is Adsense Cash Puller?**

Adsense Cash Puller is a newly discovered system that allows you to do Google Adsense without a website or Blog.

I know its sounds weird to hear that but friend I consider this system the easiest way to make money online.

### **Here is how it works...**

There are many websites on the Internet, whose business model is to become massive and build huge traffic. Most of them now have monthly traffic in millions, with people visiting them from all parts of the world to read their articles or different subjects to get information, thereby getting them more exposed.

For these websites to achieve their goal of been huge, they need to have tons of articles loaded onto them daily.

Since they cannot afford paying freelance writers to keep writing articles for them day in, day out, their best bet is to ask Google to give a certain percentage of their adsense revenue to anyone who signs up with them and contributes articles.

If you don't know what adsense is, let me quickly explain it here, although, I will be treating it deeply in the main book.

Google adsense are those contextual Google adverts you normally see displayed on certain websites that signed up for it. The adsense that shows up on a web page are always related or relevant to the content on the page.

### **Let's get back to the system...**

Now here is how I make money from the system.

I make a minimum of \$1 daily which amounts to a minimum of \$100 daily.

## **Screenshot Proofs**

Below are some screenshot I captured in order to vanish your doubt. (I mean for the doubting Thomas's)

Xomba is one out of the 100 sites I will show you.

I love Xomba.com because of the huge traffic they receive monthly from US alone.

You can see the screenshot of the traffic report of Xomba below. I captured it on 18<sup>th</sup> of March 2010 from [www.quantcast.com](http://www.quantcast.com), so it might be more than that if you check again.

2.4 Million unique visitors monthly from just one country is not a play, then what about the rest of the world?

I receive up to 10, 000 visitor on my articles from them monthly. And that alone translate to MUCH money.

How?

Ok let me show you something.....

If out of the 10,000 visitors 1,000 alone clicked my Google ads which are displayed on my articles, if 1 click is say \$0.5 each then I guess that should be \$500 from Xomba alone, and remember, some clicks are worth up to \$1 to \$15. So do the math's.

Now what if 2,000 clicked or fortunately I get 3,000 clicks you know what that mean Right?

I have shown you one site alone. What if the other 100 (hundred) sites gets me like that or lower. Well it's left to you to judge.

One amazing thing about this system is that the amount you can make from it is unlimited.

I took time to capture some earnings report. It's not constant though. The screenshot below is a screenshot of my January 2010 AdSense earnings report.
