

How to Start Your Own Foreign Currency Business from Home using your Phone

Let Me Introduce You to COTP

I am happy to introduce you to this program where you can earn up to a total of 3.0% of your trading capital daily from buying and selling the USDT. You will be doing this on a Crypto Blockchain Exchange called COTP.

COTP (Cryptos OTC Trading Platform) is a blockchain OTC and crypto currency exchange Platform registered in the United States as a Money Services Business(MSB) with FinCEN (Financial Crimes Enforcement Network) and compliant with the requirements of the Bank Secrecy Act.

USDT is one of the Cryptos and its unique feature is that the value is always constant at 1US\$ = 1 USDT. So you do not lose money on account of currency fluctuation. It is the only Crypto that I know whose value is stable!

This is not an investment but a Trading opportunity.

So how do we make money by selling USDT on COTP Exchange?

This is how it works:

COTP has an Artificial Intelligence (AI) system which scans the international markets to identify USDT buyers on Crypto currency exchanges like Binance, Okx whose bid price for USDT is higher. COTP then sells your USDT to these buyers at a higher price and buys back the USDT at a lower/standard price and sends your capital and proportion of your profit back to you after approximately 2hrs 10 minutes.

NOTE:

- 1) No Buying of robot
- 2) No monthly subscription
- 3) No gas fee
- 4) Withdrawal fee is just 0.03% (withdrawal takes less than 5 minutes to hit your crypto wallet)
- 5) Minimum Trading capital is \$10
- 6) Minimum withdrawal is \$10
- 7) 11 rounds of trading in 24 hours at intervals of 2 hours 10 minutes each (100% Profit in 30 days)
- 8) No blowing of Account (it is 24/7 Profit thing)

A little about me.

I am one of the Traders on the platform benefiting daily from trading daily on the COTP Platform. COTP like I earlier said stands for Cryptos OTC Trading Platform and is US and Canadian regulated. They are thousands of Traders like me who trade daily on this platform and if you act fast, you could become one of us and earning money daily from your trades and referral commissions (optional). Referral is completely optional and you can focus solely on trading. But should you wish to take part in that for the additional income, I would be glad to guide you as a member of my team.

SO NOW LET'S SEE HOW COTPS OPERATE

Let's say you're selling a product which goes for \$5 per unit in your city/country, but in other cities/countries the same product you're selling is going for \$6 and people are willing to buy it.

What will you do? Now...if you would sell your products to buyers in these other countries/Cities, you're going to make a profit of \$1 on each item sold.

This is how COTP works. The crypto currency we sell on the platform is USDT. COTPS has an Artificial Intelligence system which scans the international markets to identify buyers in other countries whose bid price for USDT is higher. COTP then sells our USDT to these buyers at a higher price and buys back the USDT at a lower/standard price and sends our capital and proportion of our profits back to us within 2hrs 10 minutes.

How to make money every 2hours 10 minutes in COTP OTC TRADING PLATFORM LTD

It's just like the transfer people do on Binance and other escrow groups when they want to buy crypto from one another. But with COTP, it's done globally. You can start with as little as \$10 to test the system. Once you master the system, you can increase your capital to at least \$100. Note that the more money you have the more profit you make daily. And you can compound your daily profits instead of withdrawing. You can withdraw instead at specific intervals e.g. Weekly or every 10 days. You can choose to compound monthly or even every 3 months. It is up to you.

There is a referral system that pays very well:

Referral Commission

Level 1= 15%

Level 2= 10%

Level 3= 5%

(All paid from the profits made by COTP every 2 hours 10 minutes).

DURATION OF EVERY TRADE

After a trade had been successfully executed by the Trader, it takes the system exactly 2hrs 10 minutes to process everything, after which BOTH YOUR TRADING CAPITAL AS WELL AS THE

PROFIT (less a little commission for the platform) RETURNS BACK TO YOUR COTP ACCOUNT.

At this stage, you could choose to enter the trade again or withdraw everything.

It all depends on you.

But why would you when you could be making money round the clock. And withdrawing at specific intervals.

Did I hear you say round the clock? Won't I have to sleep again?

Good question. You would still have your normal life and go about your normal business. A trade takes less than 2 minutes to complete while you wait for your capital plus profits to be returned to your wallet.

You can easily do 9 trades a day.

TIPS TO MAXIMIZE INCOME ON COTP

1. Don't forget to trade orders on the platform or your earnings will stop. You need to trade at least 9 rounds a day, so in a month, your funds will double

2. You can set a two-hour alarm clock to remind yourself to trade, and at other times you can do what you want to do without delaying you from doing other work. If starting by 6 am, you can set alarms to go off by 6am, 8.10am, 10.20am, 12.30p, 2.40pm, 4.50pm, 7pm, 8.10pm, 10.20pm, 12.30am (this is some 10 rounds). Actual time to set up the whole trades is less than 10 minutes and you are done till the next round in 2 hours' plus 10 minutes time. If you don't set up an alarm, you can easily forget or be carried away with other things which will not make you money. The money is in making the trades every 2 hours. Just set up the trade and you are done till another 2 hours. This is easy.

3. If you trade 9 rounds a day, within a month, your capital doubles, if you trade 12 rounds a day, then in 22 days, your capital doubles, the more you trade, the more profit

Everyone's funds can be doubled in 22 days.

OCTP COMPOUNDING INTEREST

Let us start with \$100. I know you can start with \$10 but that will not be worthy of your time. If you like you can test-run the system with that amount. But I advise you to start real trading with at least \$100. If you can afford \$1000 better. The more your capital, the more money you make. Remember it is a percentage thing.

\$100 START UP CAPITAL WILL EARN YOU THE FOLLOWING IN A MONTH

9 Times Daily Trading For 30 Days, Will Earn You \$127.1 Profit (this is more than your capital in 30 days).

\$100 START UP CAPITAL WILL EARN YOU THE FOLLOWING IN 3 MONTH

9 Times Daily Trading For 90 Days, Will Earn You \$1070.60 Profit (this is \$100 compounded for 3 months or 90 days!).

Imagine trading with a capital of \$10,000 or more.

You will earn \$10706.00 in 30 days trading just 9x a day. That is more than your capital in just one month. Thereafter you can withdraw your capital and trade with your profits. Every month you can withdraw 50% - 100% of your profit as your salary.

**Extra Hot Income - How to MAKE
Extra \$2.6K to \$26k MONTHLY
PROMOTING COTP**

OCTP Is Very Easy To Promote Because Of Its Low Start-Up Capital and Simplicity.

Let's Run a Case Study Of A Great Networker. This is where it gets further interesting.

If you have 100 direct Referrals in L1 (possible within 3-6 months of marketing)

If the 100 refer 10ppl each, that's 1000 ppl on your second level
L2

And the 1000 refer 5ppl each, that's 5000 ppl on your third level
L3

If Everyone Trades an average of 6 Times Daily With \$10 each (I am being very conservative with my figure here. Many will start with at least \$100 and some more). For 30 Days

L1 -> $15\% \text{ of } 7.28 * 100 = \109.2

L2 -> $10\% \text{ of } 7.28 * 1000 = \728

L3 -> $5\% \text{ of } 7.28 * 5000 = \1820

That's a Total Earning Of \$2657.20

If Everyone Trades 9 Times Daily With \$10 Each, For 30 Days

L1 -> $15\% \text{ of } 12.71 * 100 = \190.65

L2 -> $10\% \text{ of } 12.71 * 1000 = \1271

L3 -> $5\% \text{ of } 12.71 * 5000 = \3177.5

That's a Total Earning Of \$4639.15

If Everyone Trades 6 Times Daily With \$100 Each, For 30 Days

L1 -> $15\% \text{ of } 72.8 * 100 = \1092

L2 -> $10\% \text{ of } 72.8 * 1000 = \7280

L3 -> $5\% \text{ of } 72.8 * 5000 = \18200

That's a Total Earning Of \$26572

If Everyone Trades 9 Times Daily With \$100 Each, For 30 Days

L1 -> 15% of 127.1 * 100 = \$1906.5

L2 -> 10% of 127.1 * 1000 = \$12710

L3 -> 5% of 127.1 * 5000 = \$31775

That's a Total Earning Of \$46391.50
